

## Term 1 in Neverland class

Neverland class have adapted to coming back to school extremely well. They have been able to follow all the rules that are now in place to keep them safe as well as showing their determination to work hard this year to fill the gaps they have due to the school closure in the spring.

At the beginning of term we focused on PHSE and coming back to school. This meant we discussed challenges some may feel they have and the emotions which can stop us from trying sometimes along with methods to help us overcome these emotions and challenges.

They have found science and topic to be interesting and have lots of questions they wish to investigate in both which will help to lead our learning journey for the rest of the term and next term in topic.

Well done to those who remember PE kits on a Monday and Wednesday, you have been prepared and willing to give all activities a go including games close to netball, football and the group work and co-ordination skills they practise on a Wednesday afternoon.

Lastly, well done to the few children who have been dazzler so far this term, you have shown a great attitude coming back into school and worked hard in all lessons dazzling all adults in Neverland class. Keep it up!
